Red implementation and logical type hierarchies
(2020-07-11)

Implementation hierarchy — concrete type! — typeset! (logical) hierarchy

unset! — internal!

event! — external!

handle!

char!

integer!

float! — percent! — number!

time!

pair!

tuple!

date!

money!

scalar!

lit-word!

set-word!

word! — get-word! — any-word!

refinement!

issue!

all-word!

immediate!

datatype!

none!

logic!

typeset!

map!

bitset!

function! — routine!

op!

native! — action!

any-function!

object! — error!

port!

any-object!

default!

any-type!

url! — file!

email!

string! — tag!

ref!

any-string!

binary!

vector!

image!

block! — hash!

paren! — any-list!

lit-path!

path! — set-path! — any-path!

get-path!

any-block!

series!

value — context — symbol — series
